REPUBLICAN PREFERENCES.

pecial Dispatch to The Evening Star.

RICHMOND, Va., Nov., 15 .- The important duties that will devolve upon the legislature elected on Tuesday last have displaced the usual calm that follows the storm. The leaders are just as much on the qui vive as to who will be the United States Senator, the supreme court judges, the circuit judges and the state capitol officers as they were interested in the result of the election prior to Tuesday. The legislature will be overwhelmingly democratic. Out of 100 members of the house of delegates, the populists will secure only about ten seats, and there will not be more than two populists in the senate out of a total of forty. The radical change in the political senti-

ent only a few days before the election is explained by Chairman J. Taylor Ellyson. In discussing the result with The Star correspondent, he said that three weeks before the election the state was really in danger of going against his party. He had visited every section and ascertained that very few persons were interesting themselves in the fight. He knew that if he could once get everybody to go to work the fight would be won. Consequently, stirring appeals were sent out, and the people everywhere appeared to realize at once that it would not do to let the populists win through democratic apathy. Thus, all along the line the work was started, and vigorously pushed. He said that three days before the election he was confident

of a democratic victory.

The bold and defiant stand taken by the Richmond Times, one of the stanchest democratic papers in the state, has created a profound political sensation. This paper, a profound political sensation. This paper, in a leading editorial, says that O'Ferrall was not the choice of the democracy of Virginia, but was foisted upon the people by Cleveland through the federal patronage claim. The paper says this was made easy by the "pernicious convention system." It says, further, that if Mr. Cleveland did not know that O'Ferrall, in his candidacy for the nomination, was using the federal patronage dodge to catch the delegates, he ought to have known, and it is the belief of the paper that he was aware of it.

the paper that he was aware of it.

It will be remembered that the Times led
the fight for Cleveland for the presidential nomination last year. It was the first jour-nal to advocate him for the honor, long before the Chicago convention. Some of the democratic leaders indorse

this note of warning, but others deplore it, coming as it does from a democratic organ, whose editor and owner, Maj. Joseph Pryan, is a member of the state demogratic execu-tive committee and one of the most liberal contributors to the campaign funds.

Candidates for State Offices. One of the first duties that will devolve upon the new legislature will be the election of state officers. Ex-State Senater Joseph T. Lawless of Portsmouth is opposing Judge Henry W. Flournay for secretary of the commonwealth, but the indications are now that the incumbent will be re-elected, as he is one of the most popular men in his party and has held the office for several terms, during which time not a word of reproach has been attared against him either personally or officially. him either personally or officially. So far no opposition whatever to Auditor Morton Marye and Treasurer A. W. Har-man has developed. P. H. Cardwell will,

man has developed. P. H. Cardwell will, it is said, have no opposition for re-election for speakership of the house.

It is thought that the U. S. Schatorship will be disposed of in the first week of the legislative session, which begins becauber 4. The judges of the supreme court will also be chosen early in the session, certainly be-

the judges of the supreme court will also be chosen early in the session, certainly tefore the Christmas holidays.

The populist leaders pretty generally attribute their defeat to a lack of money and the poor support given their nominees by the republicans. Populists Charge Frauds.

State Populist Chairman J. C. Fierson, who made a splendid fight for his cause, takes his defeat quite philosophically, but, as usual, makes charges of fraud. To The Star correspondent today he said:

"What other result could be expected when the democrats did all the counting and refused us any representation whatever in the polling booths? Already there are numerous cases of flagrant fraud reported. For instance, in Priddy's store presents that other county, there were 196 yotes ported. For instance, in Friday's store pre-cinct, Charlotte county, there were 196 votes polled. Of these 115 signed a record on the outside that they voted the populist ticket, and yet the three democratic judges return a democratic majority of 50. There is no reasonable doubt that the populists have been cheated out of thousands of votes, and the democrats openly boast of it.

"A few facts strike me in summing up the

result. First, the democrats failed to poll their usual vote by at least 50,000. These are all populist sympathizers, and will be with us next time. Second, O'Ferrall ran some 5,000 behind his ticket, showing that the party whip was impotent in these cases to force an unworthy candidate upon their manhood. The machine politicians have triumphed, but their methods are becoming thoroughly advertised, and it is only a ques-tion of time when the people will repudiate

"Then the democrats have forever preclud-"Then the democrats have forever precluded themselves from resorting to their old cry of 'Nigger, nigger.' In their fear they openly bid for the colored vote, and they got a good deal of it—in fact, it is the colored vote that saved them. These circumstances all tend to the strengthening of the popular cause. We are full of hone for the list cause. We are full of hope for the next campaign, when we expect to send a solid populist delegation to Congress. The people are coming our way, and nothing can prevent our ultimate victory."

For McKinley and Greenhalge. Ex-Congressman Edmund Waddell of this city is very jubilant over the success of the republicans in other states Tuesday. He says he sees in the republican victories sure defeat for the democrats in 1896. Mr. Waddell is for McKinley for President, and he thinks Governor-elect Greenhalge of Massachusetts a good person for the second place on the ticket. He says that Virginia re-nublicans will be overwhelmingly for Mc-Kinley, and says it would be impossible for the democrats to beat McKinley and Green-

THE BOULEVARD PROJECT.

An Official Protest.

"We have at last discovered where the boulevard from Baltimore to Washington will run, and there is no doubt about it, says the Avalon correspondent of the Maryland (Towson) Journal. "It will run out Wilkens avenue to the Rolling road, then down the Rolling road to the valley between Mrs. E. A. Read's place and Dr. Thom's, still continuing down said valley past the places of Sullivan Pitts, Frank M. Hildebrandt's, and through Glenartney to the Patapsco river, then down the river a short distance to a point opposite the stream known as Rock Burne branch, then at the said stream through the lands of Thomas M. Dobbin, the Belmont property, the Mur-ray property, passing within thirty yards of their front door, and thence through Dr. Murray's property and Peter Kyne's land to the old Montgomery road; thence along said road a short distance until it comes to Col. Charles Marshall's beautiful place; then through Col. Marshall's to Pfeiffer's farm, from there in a straight line to Waterloo, on the Washington turnpike to Laurel. Of course, from Laurel to Washington the line is no secret. This is by long odds the short-est route and the best that could be select-ed. The country from the Rolling road to beyond Col. Marshall's place is by far the healthiest and most picturesque country in Maryland, and the projectors of said road have shown great judgment and foresight in selecting it. Of course, other surveys have been made, but none compare with the route described.'

Officers of the Baltimore and Washington Turnpike and Tramway Company have written to Baltimore county commissioners protesting against granting permission to the West Baltimore Passenger Railway Company to lay tracks on the Washington turnpike between Baltimore city and Relay. It is asserted that by an act passed by the legislature in 1892 the Baltimore and Washington company has the right to lay tracks on the Washington turnpike in Maryland. The protesting officers state that they now have a large corps of engineers surveying a route under their charter, and that any attempt by a competing company to lay tracks on the same road will lead to litiga-
